SARAVANA KUMAR

Senior PHP Technical Lead | Lead PHP Architect | Full-Stack Engineering Leader

Chennai, India | +91-7418586882 | btechsaravana2788@gmail.com | linkedin.com/in/saravanaphp2788

14+ Years PHP Engineering • PHP 8.x / Laravel / Symfony Architect • Microservices & Distributed Systems • AWS Cloud & DevOps • Technical Leadership & Mentoring

PROFESSIONAL SUMMARY

Senior PHP Technical Lead / Architect with 14+ years of experience owning end-to-end technical architecture, performance, security, and delivery for complex enterprise-grade PHP applications, SaaS platforms, CRM/ERP systems, and e-commerce solutions. Deep expertise in PHP 8.x internals, Laravel and Symfony framework internals, distributed systems, microservices architecture, REST/GraphQL API design, and cloud-native deployment on AWS. Proven track record designing highly scalable, fault-tolerant, and secure systems, defining architectural and coding standards, leading architecture/design reviews, driving technical-debt reduction and modernization, and mentoring senior developers. Skilled in clean architecture (SOLID, DRY, KISS, DDD), event-driven systems (Kafka, RabbitMQ, WebSockets), and full-stack delivery with React.js, Vue.js, and Node.js. Comfortable owning the full SDLC from requirements and system design through CI/CD, deployment, and post-production optimization, with measurable performance gains of 25-40%.

CORE COMPETENCIES

• PHP 8.x Architecture & Internals	• Technical Leadership & Mentoring
• Laravel / Symfony / Yii2 Framework Internals	• Distributed Systems & Fault-Tolerant Design
• Microservices & Monolith-to-Microservices Migration	• REST API & GraphQL Architecture
• Clean Architecture, SOLID, DRY, KISS, DDD	• Design Patterns (MVC, Repository, CQRS, Observer)
• Database Design & Query Optimization (MySQL, PostgreSQL)	• AWS Cloud Architecture & DevOps (CI/CD, Docker)
• Event-Driven Architecture (Kafka, RabbitMQ, WebSockets)	• Application Security & Performance Optimization
• Legacy System Refactoring & Modernization	• Agile / Scrum Delivery & Cross-Functional Team Leadership

TECHNICAL SKILLS

Languages	PHP 8.x (internals, memory management, generators, traits, namespaces), JavaScript (ES6+), TypeScript, Python, Node.js, Bash
Frameworks	Laravel, Symfony, CodeIgniter, Yii2, Lumen, Slim — MVC, Dependency Injection, ORM, Queues, Events, Framework Internals
Architecture	Microservices, Distributed Systems, REST API, GraphQL, SOLID, DRY, KISS, DDD, Clean Architecture, CQRS, Repository/Factory/Observer Patterns
Frontend	React.js, Vue.js, jQuery, Bootstrap, Material UI, AJAX, WebSockets
Databases	MySQL, PostgreSQL (query optimization, indexing, stored procedures, replication), Redis caching, data partitioning
Cloud & DevOps	AWS (EC2, S3, RDS, Lambda, CloudFront, SQS), Docker, CI/CD (GitLab CI, GitHub Actions), Nginx, Linux, Infrastructure Automation
Messaging	Kafka, RabbitMQ, AWS SQS, WebSockets — asynchronous & event-driven architectures
Security	Secure coding practices, PCI-compliant payment integration, OAuth2, API security, vulnerability remediation
CRM & ERP	vTiger, SugarCRM, custom CRM/ERP platforms (modular, role-based, workflow automation)
Payments	Razorpay, PayU, CCAvenue, PayPal, Stripe, Cashfree, Ezetap, GPay
e-Commerce	Magento 1/2, WooCommerce, Shopify (GraphQL/REST), custom PHP storefronts
Tools & Testing	Git, Bitbucket, GitLab, JIRA, Asana, Postman, New Relic, Swagger/OpenAPI, PHPUnit, Pest, TDD

PROFESSIONAL EXPERIENCE

Senior Full-Stack PHP Developer / Tech Lead | Zentact Systems *Jan 2025 – Feb 2026 | Malaysia (Remote)*

- Owned end-to-end technical architecture for scalable PHP (Laravel/Yii2) enterprise applications spanning CRM, ERP, and SaaS platforms for GCC and APAC clients.
- Designed fault-tolerant microservices architecture with REST API and GraphQL layers, enabling seamless third-party integrations and mobile app support.
- Led architecture and design reviews covering ER diagrams, API contracts, service-layer separation, and event-driven workflows using Kafka and WebSockets.
- Directed development of custom ERP modules (inventory, procurement, billing), improving client operational efficiency by 30%.
- Architected and managed AWS infrastructure (EC2, RDS, S3, CloudFront); established CI/CD pipelines (GitLab CI), Docker containerization, and automated deployments.
- Conducted technical interviews, code reviews, and architecture reviews; defined coding standards, engineering best practices, and documentation processes.
- Partnered directly with clients on requirement gathering, solution architecture, and effort estimation.

Senior PHP Developer | Itrosys Technologies *Apr 2024 – Aug 2024 | Bengaluru*

- Architected enterprise-grade web applications using Laravel and Yii2 with layered architecture (Repository Pattern, Service Layer, Dependency Injection).
- Optimized REST API performance, reducing average response time by 18% through query optimization, eager loading, and Redis caching.
- Improved code maintainability and test coverage via PHPUnit testing, refactoring, and SOLID design principles.
- Integrated third-party services (payment gateways, SMS APIs, OAuth2) using secure, versioned API contracts.

Senior Software Engineer | Fuelbuddy *Dec 2021 – Feb 2024 | Bengaluru*

- Led backend PHP and Node.js development for a high-traffic, on-demand fuel delivery platform (fuelbuddy.in).
- Designed and built the core logistics engine: real-time order management, fleet tracking via WebSockets, and route optimization APIs.
- Integrated Paytm and Razorpay payment gateways, improving transactional success rate by 20% through retry logic and webhook handling.
- Owned MySQL schema design and query optimization for high read/write workloads; implemented Redis caching layers for scalability.
- Built internal admin dashboards and reporting tools using Laravel and Vue.js for operations and finance teams.

Senior PHP Developer | Dreamguys Technologies *Aug 2020 – Nov 2021 | Coimbatore*

- Delivered multiple SaaS platforms using Laravel and CodeIgniter, including a doctor consultation platform (Doccure), job marketplace, and CRM products.
- Integrated 10+ third-party APIs (payment, video conferencing, SMS, geolocation) and designed reusable API client libraries.
- Reduced development cycle time by 15% through agile sprints, modular code architecture, and shared component libraries.
- Led a team of 4 developers, overseeing task allocation, code reviews, sprint planning, and delivery tracking on JIRA.

Senior Software Consultant | Corner Stone Solutions *Dec 2019 – Jul 2020 | Bengaluru*

- Provided PHP architecture consulting, reviewing legacy codebases, proposing refactoring and modernization roadmaps, and leading migration to Laravel.
- Delivered REST API integrations and custom module development for enterprise clients in logistics and retail.

Earlier Career (2011 – 2019)

Software Engineer, bMuse India Pvt Ltd (2018–2019) • Senior Software Engineer, Empulse Global (2016–2018) • PHP Developer, Vivanta Technologies (2015–2016) • Web Developer, Sakshi Academy (2014–2015) • PHP Developer, Probytes Software (2012–2014) • PHP Developer, Sun Software Solutions (2011–2012)

KEY PROJECTS & IMPACT

- STC Insurance CRM (Bahrain) — Yii2, React.js, MySQL, REST API, PayU — Improved policy issuance speed by 35% (stc.com.bh).
- iVisitDoc — Node.js, React.js, MySQL, Video API, PayU — Increased patient engagement by 40% (ivisitdoc.com).
- Passio Technologies — PHP, Node.js, REST APIs, AWS — Smart city transit fleet management platform (passiotech.com).
- Bono (Netherlands) — React.js, Shopify, GraphQL, PayPal, GPay — Increased sales conversion by 25% (bono.nl).
- Eco Protection CRM — Laravel, Vue.js, MySQL, Multi-role RBAC — Improved reporting efficiency by 20% (ecoprotection.in).
- Djobzy Job Marketplace — Laravel, MySQL, AWS, WebSockets, Payments — Reduced hiring cycle time by 30% (djobzy.com).

- Doccure — CodeIgniter, CCAvenue, Cashfree, Video API — HIPAA-aligned telemedicine SaaS platform (doccure.io).

EDUCATION & CERTIFICATIONS

- B.Tech in Information Technology — Anna University, Tirunelveli (2008–2011)
- Diploma in Information Technology — SCAD Polytechnic College, Coimbatore (2006)
- SQL Certificate — TestDome, Database Skills Verified
